## User Story

- As a user, I would like to have an account to store and manage my events. The login page is detailed in Figure 1. If their login is incorrect, Figure 2 will be shown. The page to create an account is in Figure 3. If the email is taken, Figure 4 will be shown.
- Figure 5: As a user, I would like to be able to see upcoming events each day when pressing "Event" button, so that I can see all my events in a centralized manner and plan my days accordingly.
- Figure 6: As a student, I would like a way to find and "favorite" or "follow" organizations I am interested in by "Searching for Organizations," such that I am always informed about their events.
- Figure 7: (1) As an organization, I want an account to be able to publish my events and for students to discover my organization (2) As an organization, I would like my events with detailed information to be stored persistently.
- Figure 8: As a user, I would like to see detailed information (Location, time, pictures, and contact) about various events to stay informed.
- Figure 9: (1) As a user, I would like to see all the information related to my account as well as the recent events attended. (2) As a student, I would like the option to hide the events I am going to in the interest of privacy.
- Fig 10: As a user, I would like to know more about the organization behind the event(s) that I am interested in Moreover, as an organization, I would like to see the profile information attributed to my account
- Fig 11: As an organization, I would like to keep the track of the events I have posted and add new ones as fit
- Fig 12: As a user, I would like to un-follow events that I have become uninterested or when I change my mind
- Fig 13: As an organization, I would like the flexibility to edit event details in case of a mistake or change of plans
